WEB AND MOBILE APP DEVELOPER

I'm a Front-End Web and Mobile App Developer. I have worked with a variety of tools and languages in a number of projects, with extensive experience using JavaScript/TypeScript in React and React Native frameworks. Team worker, problem solver and well-organised, with an attention to detail.

Profile overview:
- Experience in working on web and mobile app (Android, iOS and cross-platform) projects using a variety of languages and tools, both individually and in a team.
- Fast learner and willingness to learn, which have helped me succeed academically.
- High organisational skills and time management.
- Flexible and multitasking, able to work in fast-paced environments.
- Observant and attentive to details, with respect to project requirements and deadlines.
- Language proficiency: English, Italian and Filipino.

TECHNICAL SKILLS

- <u>Languages</u>: JavaScript, TypeScript, HTML, CSS
- <u>Frameworks & libraries</u>: React, React Native, Node JS, Bootstrap
- <u>IDEs</u>: Visual Studio Code, Visual Studio, Android Studio, Xcode
- <u>Database</u>: Firebase, MySQL
- <u>Design</u>: Figma, Adobe XD, Photoshop, Illustrator

QUALIFICATIONS & CERTIFICATIONS

Bachelor of Information Technology, *Academy of Information Technology (AIT), 2022*

Diploma of Information Technology, *NextTech Institute of Australia, 2019*

Prince2 Foundation, *2019*

WEB AND MOBILE APP PROJECTS

Play Today (Mobile App)
Live cross-platform golf app. I am currently working on this project as a Front-End Developer using React Native and TypeScript. *Tools: VS Code, React Native, TypeScript*

Scusa Mi! Italiano (Mobile App)

> Mobile app prototype for a local popular Italian restaurant. Designed and developed by me, it integrates many of the restaurant's functions, including browsing the menu, placing orders, making reservations and creating an account. *Tools: VS Code, React Native, TypeScript*

TechConnect (Web)

> Business idea developed in a small team that provides tutoring services to users wanting to learn about tech devices. I worked on the front-end (design & code) as well as back-end (Zoom integration). *Tools: VS Code, JavaScript, HTML & CSS, React JS, Node JS, MySQL*

MyStory (Android app)

> Native Android journal keeping app idea where users can write daily entries and keep track of their locations. *Tools: Android Studio, Java, Firebase*

Artic (iOS app)

> Native iOS app platform idea for artists where users can upload media to share with others, leave likes and comments on posts, and follow their favourite artists. *Tools: Xcode, Objective C, Firebase*

EMPLOYMENT HISTORY

React Native Developer

Play Today, Australia   2022 – present

Initially employed as an intern, I continued this position in a full-time capacity working on Play Today, a live cross-platform golf app. I am working on this project as a Front-End Developer using React Native and TypeScript. Key responsibilities:

- Mobile app UI and UX development
- Developing and updating components based on given designs
- Maintaining and improving components for better usability and efficiency
- Collaborating with other developers to troubleshoot and brainstorm ideas
- Running tests on different devices to ensure consistent UI and UX
- Working closely with a team alongside other developers and designers

Floor Staff & Waitress

Scusa Mi! Italiano, Australia   2021 – 2022
- Greeting patrons into the venue and taking food and beverage orders
- Attentive customer service, offering assistance and handling customer requests and complaints
- Setting, arranging and clearing tables, and polishing silverware
- Team working and effectively communicating with team members in a fast-paced environment

Team Member

Huxtaburger, Australia   2020 – 2021
- Taking and serving food and beverage orders from customers ordering through various means
- Food prepping and cooking in a fast-paced environment, individually and in a team
- Other duties such as operating cooking equipment, restocking, cleaning and sanitation of venue

Administration Support Officer
NextTech Institute of Australia, Australia   2019 – 2020
- Evening hours reception as a first point of contact for students and trainers
- Printing, organising and filing documents, preparing course materials and mailing certificates
- Entering data and transcribing information into the system, keeping records up to date
- Assisting in organising networking events, as well as marketing and promotion campaigns
- Maintaining the office space and re-stocking office supplies
