WEB AND MOBILE APP DEVELOPER

I'm seeking job positions in a part-time or full-time capacity in **web and mobile app development**. I am available to start working at the start of the new year, in January 2023.

Profile overview:

- Experience in working on web and mobile app (Android, iOS and cross-platform) projects using a variety of languages and tools, both individually and in a team.
- Fast learner and willingness to learn, which have helped me succeed academically.
- High organisational skills and time management, essential as a full-time international student balancing work and study.
- Flexible and multitasking, having worked in busy hospitality environments with many duties.
- Observant and attentive to details, as demonstrated by respecting project deadlines and requirements, as well as by working in customer service.
- Language proficiency: English, Italian and Filipino.

TECHNICAL SKILLS

- JavaScript & TypeScript, HTML, CSS, Java, Objective C, C#, C++
- React, React Native, Node JS, ASP.NET, Bootstrap, Firebase
- Visual Studio Code, Visual Studio, Android Studio, Xcode
- Adobe XD, Photoshop, Illustrator

QUALIFICATIONS & CERTIFICATIONS

Bachelor of Information Technology, *Academy of Information Technology (AIT), 2022*

Diploma of Information Technology, *NextTech Institute of Australia, 2019*

Prince2 Foundation, *2019*

WEB AND MOBILE APP PROJECT

Play Today (React Native CLI App)
- About: Live cross-platform mobile app for golf players that provides users with digital scoring for competitions, live leaderboards, GPS functionality and more. I worked on this project as a front-end developer.
- Tools: VS Code, React Native, TypeScript, Firebase

Scusa Mi! Italiano (React Native Expo App)
- About: Scusa Mi! Italiano is a popular local restaurant that delivers authentic Italian cuisine. I designed and developed a mobile app prototype for the restaurant. Functionalities include the ability to browse the restaurant's menu, view item details and nutritional info, place dine-in and takeaway orders, make table reservations and leave feedback.
- Tools: VS Code, React Native, TypeScript

TechConnect (Web)
- About: TechConnect is a business idea developed in a small team that provides tutoring services to users wanting to learn how to use technological devices. I worked on the front-end (design & code) as well as back-end (particularly on the Zoom integration).
- Tools: VS Code, JavaScript, HTML & CSS, React JS, Node JS, MySQL

MyStory (Android app)
- About: MyStory is a journal keeping app project where users can sign up and write daily entries and keep track of their locations. It uses Firebase as database and authentication, as well as Google and Facebook sign in.
- Tools: Android Studio, Java, Firebase

Artic (iOS app)
- About: Artic is a platform idea for artists where they can upload media to share with other users. Users can leave likes and comments on posts, and follow their favourite artists.
- Tools: Xcode, Objective C, Firebase

EMPLOYMENT HISTORY

React Native Developer

Mirk, Australia   2022
- Working remotely on a cross-platform mobile app project using React Native and TypeScript
- Researching, designing, implementing, and managing UI components for mobile apps
- Writing, implementing and delivering efficient code
- Front-end development of components and screens based on given designs
- Maintaining and improving components for better usability and efficiency
- Running tests on different devices emulators to ensure consistent UI and UX
- Working closely with a team alongside other developers and UX designers

Floor Staff & Waitress

Scusa Mi! Italiano, Australia   2021 – present
- Greeting patrons into the venue and guiding them to their tables
- Attentive customer service throughout patrons stays, offering assistance and recommendations
- Handling customer requests and complaints
- Taking and serving food and beverage orders
- Setting and arranging tables, clearing and cleaning tables, polishing glasses and cutlery
- Collecting payment and operating point of sales machines
- Regularly communicating with team members in various work environments, including during fast-paced peak hours

Team Member

Huxtaburger, Australia 2020 – 2021

- Taking and serving food and beverage orders, and receiving payment from customers (walk-in reception, by phone and delivery)
- Food prepping and cooking in a fast-paced environment, individually and in a team
- Operating cooking equipment such as grills and fryers
- Other duties such as restocking, cleaning and sanitation of kitchen and venue

Administration Support Officer
